

35th Irish Concrete Society Awards

Nomination Form

The Irish Concrete Society will again make an award for excellence in design or construction of a completed building, structure or concrete element, irrespective of type, scale or complexity, in concrete.

The Award Scheme is organised to enable the Society to acknowledge construction achievements in which concrete, in any form contributes significantly to the built environment. Entries relating to the contribution made by concrete to any aspect of building, civil engineering, architecture, art or landscaping will be accepted by the Society.

Entries are subdivided into three categories:

- *Building*
- *Infrastructure*
- *Element* (Housing or small projects e.g. walls, stairs, paving)

There will be one overall winner chosen, with category winners in the other sections, depending on the level and quality of entries.

The jury will consider awarding special recognition for the use of concrete in a sustainable context. Nominations should include a brief description of the contribution of concrete in this regard.

The adjudication will be carried out by an independent jury convened by the Council of the Society

Nominations for the Award may be made by clients, Architects, Consulting Engineers, Material Suppliers, Contractors or others directly involved with the project. Nominations must refer to **completed work, located in Ireland, which commenced after January 2013.**

Note Entries submitted for the previous year's award may remain eligible for this year's scheme if they meet the requirements of the above commencement date. A new nomination form and photographs must be resubmitted.

Entries will be selected by the jury for display at the Awards Evening.

Photographs must be of high quality and submitted in digital format (Jpeg format preferred). As a guide, file sizes for each photograph should be 750kB or greater. Photographs should highlight the concrete elements of the structure.

Additional forms may be downloaded from www.concrete.ie

Completed forms must be returned to the Society at the address below before the closing date of **Tuesday 15th of November 2016.**

**Irish Concrete Society,
Platin,
Drogheda,
Co. Louth**
