

## Northern Ireland Region – Technical Day Tuesday 21/04/15 Start 9.00 am

This years **Concrete Society Technical Day** will provide an overview on a variety of relevant concrete topics including Constituent Materials for use in Concrete, Concrete Production, Concrete Design, Concrete testing and measures to take in the event of apparent failure.

The Technical Day offers an **extremely cost effective** opportunity of providing training to individuals and staff. Our past Concrete Technical days have proven to be enormously popular and of particular interest and benefit to those in the construction industry wishing to gain further technical insight.

The Technical Day comprises of technical presentations in the 'Eric Martin Room' followed by practical demonstrations on concrete testing in the training area.

This year both the **technical presentations** and **practical demonstrations** will take place at CITB NI 17 Dundrod Road, Crumlin Co Antrim N Ireland BT29 4SR.

The topics to be discussed include:

Constituent Materials for use in Concrete Production  
Concrete Mix Design  
Concrete Production  
Conformity Control  
Identity Testing (Site Testing)  
&

What you need to know if it all goes wrong?

**Places are limited** and will be assigned on a **first come basis**.

The Training Day should be of particular interest to, Site Engineers, Specifiers, Building Contractors, Clerk of Works, Consulting Civil & Structural Engineers, Producers and others interested in current concrete technology.

The cost is £150.00 including VAT (£125 pre VAT) and applications should be made on the reply slip and returned to Declan Wright, Larsen Building Products, Harbour Industrial Estate, 4 West Bank Road, Belfast BT3 9JI,

together with a cheque made payable to 'The Concrete Society (NI) Region'.

Alternatively, payment can be made to the following bank account with a record of payment emailed to [d.wright@larsenbuildingproducts.com](mailto:d.wright@larsenbuildingproducts.com).
