

## River Barrow Bridge Site Visit

20<sup>th</sup> of April 2018

The Society is pleased to invite members to visit this seven-pier extrados bridge, currently under construction in New Ross, Co. Wexford. With an overall length of 887 m and two main spans of 230 m which are 10 m longer than the next longest concrete-only extradosed box-girder section spans in the world.

Further details available on BAM's website [here](#).

*This visit is limited to 15 people, only 1 representative per company. ICS members will get preference.*

### ***Itinerary***

- *Arrival at approx. 10:30 a.m. (The Society may arrange transportation from Dublin)*
- *Site induction, site visit to River Barrow Bridge, return to site offices*
- *Lunch in Brandon House Hotel for 2 p.m.*

***You must contact the Society to book***
