Technical Seminar

Second Life: options for repair and refurbishment of structural concrete

Who should attend:

- Design Engineers
- Local Authority Engineers
- Resident Engineers
- Main Contractors
- Specialist Sub-Contractors
- Asset Managers and Clients

17th October 2023

A half-day technical seminar for all those involved in the assessment, specification and execution of the repair and reuse of structural concrete

www.concrete.ie

Date and Venue

Date: 17th October 2023, registration from 9.30am

Venue: Clayton Hotel, Liffey Valley, Dublin

Introduction

Concrete structures are designed to last for at least fifty years and often beyond. Efforts are increasingly turning towards improving the durability traits of concrete to ensure even longer lasting structures. This longer-term view is also being applied to existing buildings and structures whereby refurbishment and repair contributes to the extension of expected service life. This can result in increasing the sustainability of building resources through the reuse and adaptation of concrete buildings to meet future needs, and infrastructure that continues to meet its operating requirements beyond the original intention.

In this seminar our experienced panel of speakers will provide practical information and guidance on issues to be considered, their assessment and options available for repairing concrete structures.

Seminar Content and Speakers

09.30 Registration

10.00 Chair's Introduction

Cloragh Byrne, Arup

10.05 Causes of Defects

Robin Gahan, SCB Services

10.35 Testing and Assessment

Dr Thomas Callanan, Infrastruct AMS

11.05 Break

11.25 Repairs in Accordance with EN1504

Anjana Singh, Sika Ireland

11.55 Extending the Life of our Aging Concrete

Enda McKenna, McFarland Consulting

12.30 Questions and Answers

13.00 Ends

Fee

ICS / Concrete Society (NI) Member: €110 / delegate

Non-member rate: €160 / delegate

A booking discount of 10% applies to groups of 5 or more

CPD: 3 Hours
